Okay folks. It looks like Thursday morning at 10:00 AM works for everyone. The meeting will be at the Corp of Engineers office building conference room.

The Corp office is just farther up the street from the Game and Fish office building. Just keep going north from the GF office till you are out in view of the lake. Corp office is the long, 2½ story brick and concrete institutional building off to the right. Should be no problem finding it. However if you do, call me on my cell phone when you get lost. I'll hand you over to the Corp search and rescue folks (:>).
I'll see you all in 2 days.

All, and hopefully I haven't forgotten anyone, or at least any agency, this time.

A couple of important players with the Corp can't make it on Wednesday, so does Thursday, January 17 at 10:00 work for everyone?

Dave Fryda, is your conference room open? If our meeting goes long, then the Corp conf room might be a problem.

Jessica, I don't have Carol's e-mail, so would you pass this on to her? Like to have her as well.

Well, too late to re-think things now. How does next Wednesday, January 16, 10:00 AM, sound to everyone?

Dave Fryda, is your conference room open at that time? Will, yours?

Consensus is that we postpone until next week or so. Will re-coordinate Monday or Tuesday.

Someone from EPA Denver will likely be present in person, but no guarantee.

All:

Weather Forecast for tomorrow, as of 3:45 today, is:

Watford City (given as the middle of the western travelers point) – Snow (100%), possibly mixed with freezing rain, becoming all snow after 7am. Temperature falling to around 5 by 5pm. Wind chill values as low as -20. Blustery, with a northwest wind 21 to 28 mph, with gusts as high as 36 mph. Chance of precipitation is 100%. Little or no ice accumulation expected. New snow accumulation of 2 to 4 inches possible.

Riverdale (our meeting location) – Snow (100%), possibly mixed with freezing rain, becoming all snow after 9am. Temperature falling to around 5 by 4pm. Wind chill values as low as -20. Blustery, with a north wind 18 to 28 mph, with gusts as high as 36 mph. Chance of precipitation is 100%. Little or no ice accumulation expected. New snow accumulation of 1 to 3 inches possible.

Bismarck (other travel extreme) - Freezing rain, possibly mixed with snow and sleet before 8am, then snow, possibly mixed with freezing rain between 8am and 11am, then snow after 11am. Temperature falling to around 9 by 5pm. Blustery, with a north wind 15 to 20 mph increasing to 21 to 26 mph in the afternoon. Winds could gust as high as 34 mph. Chance of precipitation is 100%. Little or no ice accumulation expected. New snow and sleet accumulation of 1 to 3 inches possible.

So, do we want to go or postpone?

Let me know NOW. So I can get everyone in the loop.
